or choose one of the many preset designs.

# Leather Series

Be ready to provide a totally different aesthetic look to your areas with the 1st class artificial leather covering on aluminum skirting.

Whether you choose from the colors and textures from our current portfolio or send us the sample or view of the leather type you want to combine, and we present it to you by covering it with the same or the closest one to yours by picking the right one from the thousands of different color and texture options.

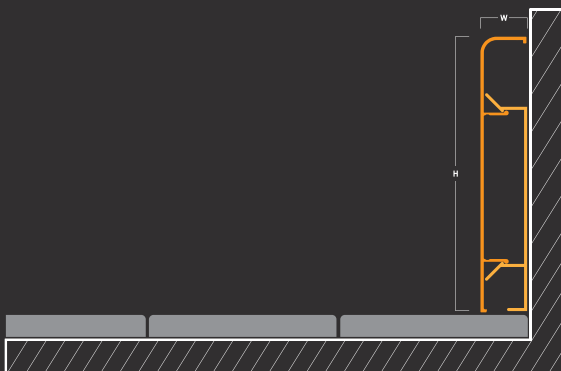

The artificial leather we use for coating is the top-quality and almost the same with real leather.

No discoloration occurs with UV light exposure while getting extra resistant to scratching and tearing.

Every possible corner details with the leather skirting board has been thought. We offer you to remove problems might be occurred at the joining point of the corner with our chrome-plated accessories for both inner and outer corner turns.
