

1 Pick the correct profile according to the flooring thickness.

2 Apply joint and place the profiles anchor accordingly.

3 Press the profile until it is fixed to the joint.

4 Apply joint to the places where the flooring will be placed.

5 Place and align the flooring to the profile.

6 Cut profiles 45 degrees for corners.

7 Align the profiles at the corners and press them into the joint.

8 Place and align the flooring to the profile.
