SENTIO

Aluminum Skirting Board

Sentio aluminum skirting board is mostly preferred in areas with large gaps between wall and flooring due to its wide form. With the extended hollow area in its design, it collects the telephone, electricity and internet cables to organize environments such as workplaces and offices. It covers the defects in floor and wall joints. It prevents dirt accumulation and harmful organisms to provide hygienic and healthy use for many years. Sentio has matte anodized, bright anodized, satin chemical bright anodized and electrostatic powder painting options. While silver, yellow, inox, bronze and black anodized color coatings are available, it can also be painted to the desired RAL code with electrostatic powder painting.

ORDER CABLES IN AREAS SUCH AS WORKPLACES AND PUT AN END TO THE MESS
